MCSE:

Cloud Platform and Infrastructure

# MCSE: Cloud Platform and Infrastructure

## Solutions Expert

The globally recognized standard for IT professionals

The Microsoft Certified Solutions Expert (MCSE): Cloud Platform and Infrastructure certification validates that you have the skills needed to run a highly efficient and modern data center, with expertise in cloud technologies, identity management, systems management, virtualization, storage, and networking.

Earning an MCSE: Cloud Platform and Infrastructure certification qualifies you for such jobs as cloud administrator, cloud architect, computer support specialist, and information security analyst.

This MCSE certification does not expire or require recertification. However, each calendar year, you have the opportunity to earn the certification and to receive an additional entry on your transcript. You do this by passing a unique exam from the list of electives, which demonstrates your continued investment to broaden or deepen your skills in a specific technology area.

For 2016, this MCSE certification can be earned as follows:

**Step 1.** Earn one of the following Microsoft Certified Solutions Associate (MCSA) certifications:

- MCSA: Windows Server 2016
- [MCSA: Cloud Platform](#)
- [MCSA: Linux on Azure](#)
- [MCSA: Windows Server 2012](#)

**Step 2.** Pass one of the following elective exams during the 2016 calendar year.

Course Description	Course Code	Exam code
Developing Microsoft Azure Solutions	532	532
Implementing Microsoft Azure Infrastructure Solutions	533	533
Architecting Microsoft Azure Solutions		534
Designing and Implementing Cloud Data Platform Solutions		473
Designing and Implementing Big Data Analytics Solutions		475
Securing Windows Server 2016	<a href="#">744</a>	744
Designing and Implementing a Server Infrastructure	<a href="#">413</a>	413
Implementing an Advanced Server Infrastructure	<a href="#">414</a>	414
Monitoring and Operating a Private Cloud	<a href="#">246</a>	246
Configuring and Deploying a Private Cloud	<a href="#">247</a>	247

**Note** You cannot use the same exam to fulfill both MCSA and MCSE elective requirements. For example, if you passed exams 533 and 534 to earn your MCSA: Cloud Platform certification, you need to take a third, unique elective exam to earn your MCSE: Cloud Platform and Infrastructure certification.
