MCSE:

Enterprise Devices and Apps

MCSE: Enterprise Devices and Apps

Solutions Expert

The globally recognized standard for IT professionals

Note This certification will retire on March 31, 2017. When the certification retires, all individuals whose transcripts list this certification as active on or after September 26, 2016, will retain the active status.

Find out about the replacement certification, MCSE: Mobility.

The Microsoft Certified Solutions Expert (MCSE): Enterprise Devices and Apps certification validates that you have the skills needed to manage devices in today's bring-your-own-device (BYOD) enterprise. It qualifies you for a career path which can range from traditional desktop support technician to enterprise management of BYOD devices and apps.

Step	Course Description	Course Code	Exam Code
1	Installing and Configuring Windows 10		698
2	Configuring Windows Devices	697-1 697-2	697

After successfully completing steps 1 and 2, you'll earn a Microsoft Certified Solutions Associate (MCSA): Windows 10 certification.

Step	Course Description	Course Code	Exam Code
3	Deploying Windows Desktops and Enterprise Applications	695	695
4	Administering System Center Configuration Manager and Intune	696	696

This MCSE certification requires you to show continued ability to perform in your chosen solution area by completing a recertification exam every three years.
