MCSE:
Mobility

MCSE: Mobility

Solutions Expert

The globally recognized standard for IT professionals

The Microsoft Certified Solutions Expert (MCSE): Mobility certification validates that you have the skills needed to manage devices in today's bring-your-own-device (BYOD) enterprise. It qualifies you for a career path which can range from traditional desktop support technician to enterprise management of BYOD devices and apps.

This MCSE certification does not expire or require recertification. However, each calendar year, you have the opportunity to earn the certification and to receive an additional entry on your transcript. You do this by passing a unique exam from the list of electives, which demonstrates your continued investment to broaden or deepen your skills in a specific technology area.

For 2016, this MCSE certification can be earned as follows:

Step 1. Earn your [Microsoft Certified Solutions Associate \(MCSA\): Windows 10 certification](#).

Step 2. Pass one of the following elective exams during the 2016 calendar year.

Course Description	Course Code	Exam Code
Deploying Windows Desktops and Enterprise Applications	695	695
Administering System Center Configuration Manager and Intune	696	696
Planning for and Managing Devices in the Enterprise		398
