**MCSE:**

**Server Infrastructure**

## MCSE: Server Infrastructure

### Solutions Expert

The globally recognized standard for IT professionals

**Note** This certification will retire on March 31, 2017. When the certification retires, all individuals whose transcripts list this certification as active on or after September 26, 2016, will retain the active status.

Find out about the replacement certification, MCSE: Cloud Platform and Infrastructure.

The Microsoft Certified Solutions Expert (MCSE): Server Infrastructure certification validates that you have the skills needed to run a highly efficient and modern data center, with expertise in identity management, systems management, virtualization, storage, and networking.

Earning an MCSE: Server Infrastructure certification will qualify you for such jobs as computer support specialist and information security analyst.

Step	Course	Course Code	Exam Code
1	Installing and Configuring Windows Server 2012	<a href="#">410</a>	410
2	Administering Windows Server 2012	411	411
3	Configuring Advanced Windows Server 2012 Services	412	412

Step	Course	Course Code	Exam Code
After successfully completing steps 1 -3, you'll earn a Microsoft Certified Solutions Associate (MCSA): Windows Server 2012 certification.			
4	Designing and Implementing a Server Infrastructure	413	413
5	Implementing an Advanced Server Infrastructure	414	414

This MCSE certification requires you to show continued ability to perform in your chosen solution area by completing a recertification exam every three years.
